Army & Air Force Georgia Tech Military Science Programs

Army ROTC is offered through cooperation with the Georgia Institute of Technology to provide students with career options that lead to commissions as second lieutenants in the Active Army, Army National Guard or Army Reserves.

Air Force ROTC is offered through the Department of Air Force and Aerospace Studies on the campus of Georgia Institute of Technology. AFROTC is available to Kennesaw

State University students through cross registration. The academic program offers two phases. The first two years constitute the General Military Course (G.M.C.) and the last two years, the Professional Officer Course (P.O.C.)

Refer to the end of this section—Programs of Study for detailed information on the Military Science Program.

Graduate Studies

An Office of Graduate Studies was created in 1984 by the Board of Regents of the University System of Georgia. Kennesaw State University was granted full accreditation for graduate-level programs by the Southern Association of Colleges and Schools on December 18, 1986.

Graduate study offers well-qualified students the opportunity to obtain a master's degree, to increase their skills for their professions and to become involved in scholarship and research, which can broaden their professional and cultural backgrounds.

The degrees offered include the Master of Accounting, Master of Business Administration, Master of Business Administration for Experienced Professionals, for both business professionals and physicians, Master of Public Administration, Master of Science in Conflict Management, Master of Science in Information Systems, Master of Science in Nursing, Master of Art in Professional Writing and the Master of Education with majors in elementary education (P-5), middle grades education (4-8) and special education (interrelated). In addition, the College of Education offers numerous teacher endorsement, recertification and renewal programs.

WebMBA

The WebMBA provides highly self-disciplined individuals an opportunity to complete an MBA degree on-line (distance learning). It is a time intensive "lock-step" program whereby each student takes two courses a semester

until completion of MBA requirements. Students attend a weekend orientation and then totally work on-line, in a virtual learning community, until degree completion. Currently there are five institutions from the State of Georgia participating in this innovative and collaborative approach.

**Integrated Graduate Studies:
Bachelor's-Master's Degree
Option:**

Integrated graduate studies provide qualified undergraduate students the opportunity to begin graduate studies in their senior year and simultaneously to satisfy some remaining requirements for the bachelor's degree and the beginning requirements of an advanced degree. Students interested in this type of program may obtain further information in the section of this catalog entitled Preparation for Post-Baccalaureate Study, from the Office of the Graduate Dean at (770) 423-6738. The name and telephone number for each Graduate Program Director may be found on the KSU Website, in the *Graduate Catalog*, or obtained from the Office of Graduate Admissions.
