**Karen B. Andrews, Director  
Career Services**

My participation in this activity was incredibly rewarding. Although I went into the experience without much "expectation," I came away with a renewed sense of why Kennesaw State is such a successful academic enterprise. The staff members participating in my session invigorated me as a leader instead of "the other way around." They were completely invested in the process.

**Rebecca S. Casey, Chair  
University Studies**

I was extremely impressed with the personal values all the participants had and how they wanted to be a part of making a difference at KSU.

**Earle Holley, Vice President  
Business and Finance**

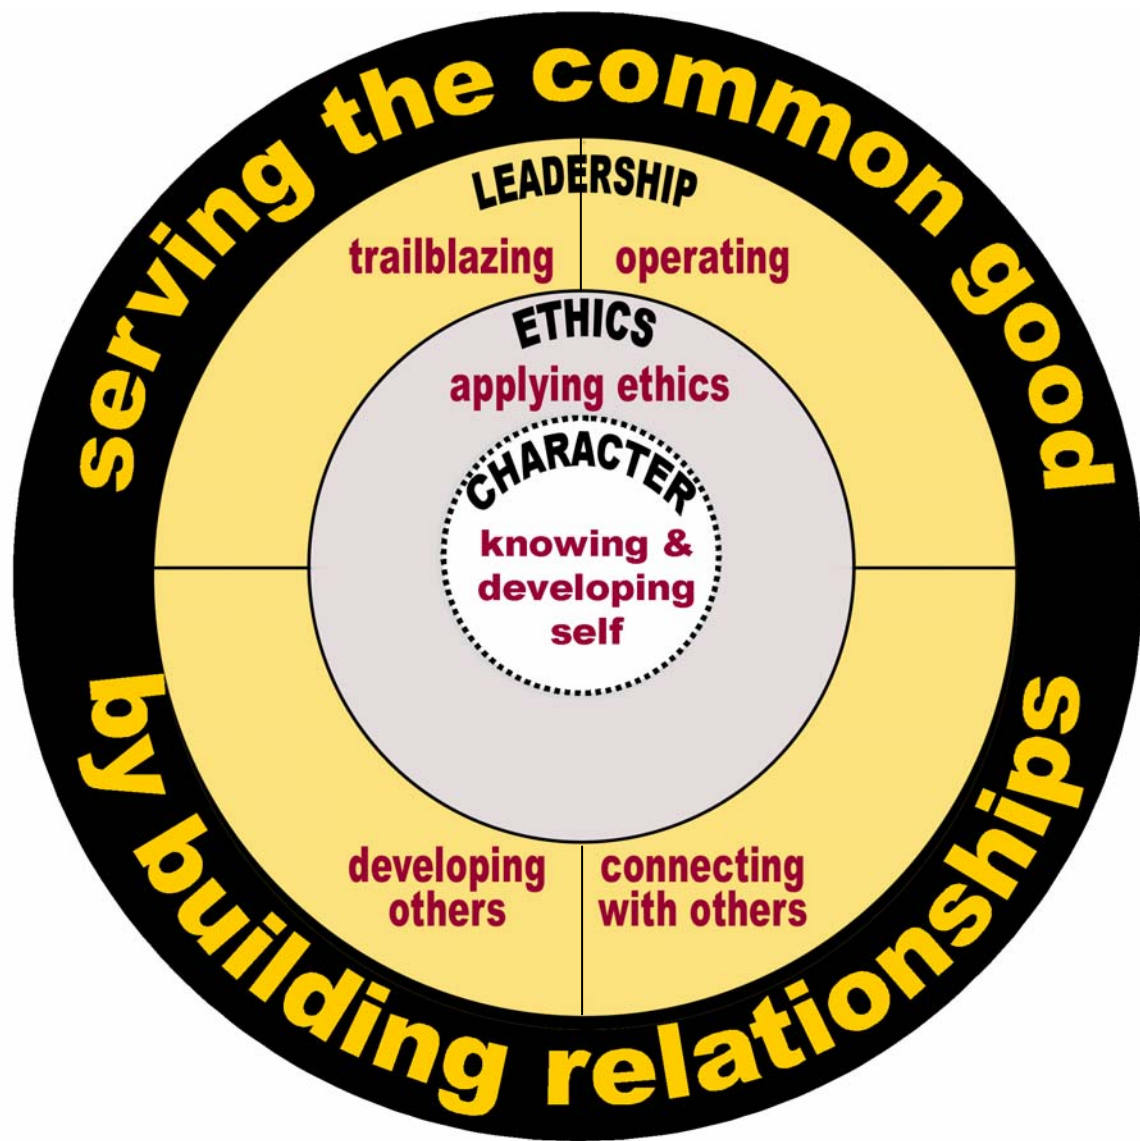

I was so pleased to be asked to participate in the Ethical Leadership program as a facilitator. In my opinion there is no more important topic for our university--indeed, the world--than a discussion of what it means to be an ethical leader. I am pleased that KSU has brought this critical issue to the forefront of our thinking.

**Nancy King, Vice President  
Student Success and  
Enrollment Services**

The ELC program is important because it is an investment in social capital: it fosters networks and relationships among people. Participants quickly become leaders in "everyday" settings because of the knowledge and skills that they learn in their sessions, and because of the connections with others that they make in their lives.

**Lana Wachniak, Associate Dean  
Humanities and Social Sciences**
