

**CLASS (Communities for Learning Success)
Fall Semester 2005**

ALL RESIDENTIAL FIRST-YEAR STUDENTS ARE REQUIRED TO PARTICIPATE IN CLASS:

All non-residential first-semester, full-time students are required to register for either KSU 1101 or one of the KSU 1102 (CLASS) learning communities. Biology majors can take BIOL 2101 to satisfy this requirement.

Hip Hop America - I

It's about the music, but it's about more than the music. This community will examine central themes in the world of social science and humanities through the lens of youth and contemporary culture. Themes include the function of art, creative art as civic engagement, and music as a mirror of social values.

KSU 1102/01	MUSI 1107/01/10123	MW	8:00 AM – 9:15 AM	J. Pritchard	HU 102
CRN #12426	KSU 1101/44/10729	TR	11:00 AM – 12:15 PM	C. Usher	UV 2002
	ENGL 1101/55/11185	TR	2:00 PM – 3:15 PM	W. Hunley	EB 266

Hip Hop America - II

This is a "take two" of the above community, with two of the courses at different times. Themes include the function of art, creative art as civic engagement, and music as a mirror of social values.

KSU 1102/02	MUSI 1107/01/10123	MW	8:00 AM – 9:15 AM	J. Pritchard	HU 102

Cultural Competence in the Global Society

This community will introduce you to an international worldview and enhance your awareness of the linguistic and cultural diversity in our midst. KSU students are increasingly preparing for careers in the global marketplace. To succeed in an ever more diverse social environment, you stand to benefit from learning about other people's practices and products -- and to reflect on your own.

KSU 1102/03	KSU 1101/18/10669	MW	9:30 AM – 10:45 AM	L. Boettler	UV 2002

TechnoWizards: Online Learning

The expansion of learning beyond the classroom will be explored in this community, which offers two online courses. Learn outside the boundaries of a classroom as you connect with your faculty and peers electronically. This community will make extensive use of WebCT and out-of-class events and activities. Expand your horizons with online learning.

Me, Myself & College - I (For residential students)

For freshmen, the arrival at college signals both an achievement and a stressful transition. Virtually all students come with two objectives: to achieve academically and to succeed socially; for residential students, there may be additional considerations such as making new friends, living with roommates, learning how to relate to peers, and contributing to society. College provides a unique environment for the discovery and definition of self, fostering independence, freedom, and autonomy. This CLASS, designed for residential students, will explore these issues utilizing literature of the "self" and will create a collaborative learning environment between the individual and others through discussion and teamwork.

KSU 1102/08	ENGL 1101/10/11097	MW	9:30 AM – 10:45 AM	J. Sadre-Orafai	UV 2004
CRN #12430	ART 1107/01/10013	MW	11:00 AM – 12:15 PM	C. Collins	HU 102
	KSU 1101/28/10713	MW	2:00 PM – 3:15 PM	K. Frazier	UV 2001

Me, Myself & College – II (For residential students)

This is another community specifically designed for first-year residential students. It, too, will explore issues of self and will create a collaborative learning environment between the individual and others through discussion and teamwork.

KSU 1102/09	KSU 1101/17/10667	MW	9:30 AM – 10:45 AM	K. Frazier	UV 2001

Creating Global Citizenry: Meet the World at KSU

Cornbread and kimchi, English and Urdu, denim skirts and ao dai—these are just a few of the foods preferred, languages spoken, and garments worn by students at KSU. With its 1,400+ international students from 129 different countries, KSU serves as a microcosm of a world in which globalization is a major trend. This CLASS will examine characteristics of a variety of cultures, explore cultural similarities and differences, consider the ways in which our ideas reflect our cultural backgrounds, and discuss what can be gained (and what shouldn't be lost) as globalization continues. This community will, of course, welcome both American and international students in an effort to foster cross-cultural communication and help all students better fulfill their roles as global citizens.

Right, Wrong & Real: Making Ethical Choices in a Changing World

Is lying always wrong? Is it cheating when you "borrow" ideas from online sources? What are the ethical implications regarding the way we treat our bodies, other people, animals, and the environment? Right, Wrong and Real is a learning community in which we'll explore these and other questions. Come join us to discuss where our rules for living the "good life" come from and what they tell us about ourselves.

KSU 1102/11	PHIL 2200/12/11194	TR	11:00 AM – 12:15 PM	T. Pynn	WH 224

E-Portfolio: Passport to a Global Perspective

Take your learning beyond the college transcript and join this hands-on community that guides you through the design and development of an e-portfolio. Using the latest e-portfolio technology offered at KSU, you will reflectively archive your learning experiences to honor, understand, and connect your learning. E-portfolios give you a better understanding of your learning and provide a networking opportunity for you to share your learning story for advising, choosing an academic major, internships, study abroad, career search and global issues. The e-portfolio mirrors the current culture of the workforce and higher education, which demand that college students be able to manage their learning plan for continued education to keep current with the necessary expertise in their technologically global worksites and communities. For more information on e-portfolios at KSU consult:

<http://edtech.kennesaw.edu/21c/>; <http://careerctr.kennesaw.edu/Portfolio.html>

Watcha Gonna Be When You Grow Up?

If you've made it to college but feel somewhat directionless, you are not alone. Many new students arrive at college with no idea of what they want to choose as a major, much less do for their career. Others have a good idea, but after a semester or so of college decide their original choice isn't for them. In this CLASS you will complete a series of career assessments designed to help you identify your interests, skills, values, and personality -- and then match the results of these assessments with various career options. In addition, you will apply research and critical thinking skills as you investigate occupations and compare such things as job demand, salary potential, and work responsibilities of different professions. The processes you learn in this community provide you with skills, resources, and strategies to assist you in career decision-making throughout your professional life.

Diversity in the Game of Life

"Duck... Duck.... GOOSE!" You know the rules of this child's game. You're "safe" as long as you are tapped a "duck." If you become the "goose," you end up running around in circles. Sure, this is just a child's game, but similar things happen in the game of life. People get labeled, are treated differently based on that label, and often times have to search for safety. All of us at one time or another have been the goose and the duck. And, whether we'd like to admit it or not, we've probably all done our fair share of tapping as well. In this CLASS you learn to examine your own and others' beliefs and attitudes about different people. Yes, this CLASS will challenge you. But in the end, you will undoubtedly have a better understanding of yourself and of other people, an understanding that will not only help you in college but in life as well.

Fantastic Voyage: A Journey into the Human Mind (For psychology majors)

Behold the real final frontier, the human mind. From why we dream to ways we can improve our memories, psychology has helped us divine a map to the deepest reaches of our brains. Here are just a few of the questions that we'll explore in this learning community: Does subliminal advertising work? What exactly is an Oedipus complex, anyway? How accurate are eyewitnesses to crimes? Are intelligence tests biased? Is ecstasy really a 'safe' drug? Why does Jack Nicholson repeatedly lock the doors in "As Good as it Gets?" In this CLASS, we'll set a course for understanding the way humans think, learn and feel. And we'll set out to prove that psychology is not just fantasies and Freud.

Why Wellness Works: Becoming a Well-Balanced Student in an Unbalanced World

Do you want to know more about how you can become a successful student? If so, then join us as we look at the concept of "wellness." Wellness refers to more than just the absence of disease or being physically fit. The wellness model focuses on self-responsibility and encompasses six different aspects: physical, occupational, emotional, social, intellectual, and spiritual. Each of the dimensions is separate, yet interrelated. Once students learn to achieve a good balance among the dimensions, they can function at their optimal level – an essential for becoming a successful student.

The 7 Habits of Highly Effective College Students

Success in college (and in life) results from many factors. Certainly academic ability and preparation are important, but just as important are things like clear goals, good time management, effective relationships with others, and taking time to renew yourself. Stephen Covey, the bestselling author of *The 7 Habits of Highly Effective People*, has applied his principles to college success. Join us as we explore the many ways in which the 7 Habits can help you achieve your goals.

Great Speeches of the 20th Century

This CLASS highlights great moments in history through the use of speeches of the 20th Century. The range of speeches covers a broad spectrum of topics and orators spanning a century. These include presidents, politicians, goodwill ambassadors, students, clergy, and common citizens, past and present. Through the lens of those with liberating visions and those who dare to dream, we will celebrate our collective humanity.

Nice Daze and Disco Nights: The Social History & Popular Culture of the 1970s

As one of the most turbulent decades in American History, the 1970s also have an enduring legacy in the collective imagination of all Americans. Beyond the stereotypes—the leisure suits, the shag carpets, and the hair—the '70s represent an important period of social transition. This CLASS will consider the lows and highs of a decade that furthered the concept of the American dream even as Watergate and Vietnam threatened that dream. We'll study the lasting popularity of '70s media—especially music, film, and television—as well as the influence the decade had upon our understanding of race, war, technology, and government.

Crime-Fighters Needed (For Criminal Justice Majors)

Specifically designed for students considering a major in any field of criminal justice, this CLASS will examine the criminal justice system as an institution at the crux of societal concern. When individuals are asked to define major social problems, the fear of and response to crime are found at the top of the list. People not only want to have a better understanding of these problems: many also want to become a part of the solution.

World Matters – I

This theme will highlight international relations and politics with the goal of arriving at real-world solutions. Our multidisciplinary approach will help us to achieve an understanding of other countries, cultures, and religions. More importantly, we will seek answers to common questions about the way we are perceived around the globe. Which countries are most critical of U.S. foreign policy ... and why? How can we reconcile America's desires with those of the world? Through group-oriented research, we will look at America through the filter of international press and foreign commentators. We will use a critical perspective of our country's actions to understand how they affect others and what we can do to repair strained relations. We will study the matters of the world and learn that the health of the world really does matter. Students who have had international experience or those who would love to travel, work, or study abroad will love this theme. Send an e-mail to Mr. Hagin for more details: shagin@kennesaw.edu.
