

Amy, '08

Kennesaw State University runs deep in Amy's family. "When it was time to pick a school, I already knew where I wanted to be – it was KSU. I am a second-generation KSU student. My mother received a great education here, and I knew I would, too. My time in college has been filled with real-life experiences, especially in the classroom. I have received life lessons disguised as coursework. Receiving a degree from Kennesaw State means a great deal to my family. It's our tradition."
