

Mark, '09

At Kennesaw State University, I learned the importance of getting involved. With so many opportunities for service at KSU, I jumped right in and helped found Operation Orientation Crew, which welcomes new students to campus. I also joined the Distinguished Black Gentlemen, which focuses on mentoring, as well as the African-American Student Union. Through my volunteer efforts, I'm becoming a better person and gaining valuable leadership skills that will serve me well in the future.
