Hackathon 2019

The College of Computing and Software Engineering (CCSE) Hackathon is our college's premier event in showcasing student talent and connecting companies to our students. Through dedicated "threads" (aka themes) within the event, companies can raise awareness of opportunities for students to work with them, increase brand awareness, and locate top talent for computing workforce. Students can hone their skills, apply the knowledge they gain inside the classroom in authentic, real-world problems, and connect with internship and job opportunities.

Come together with friends and other students, meet new people, strengthen your design and development skills, and connect with companies eager to identify talent and see what you can make... all within one weekend. This hackathon will strengthen your resume, let you apply what you're doing in the classroom into real-world scenarios, and let you earn valuable cash, prizes, and awards (over $15k in prize money available)!

The CCSE Hackathon is open to **all undergraduate and graduate CCSE** (ACS, BASIT, IT, CS, SWE, CGDD and PhD in Data Science and Analytics).

Each industry sponsor will present challenges related to their thread of industry. Multiple challenges are possible for each sponsor. In each of these challenges, students will be chosen to form teams of 3 (and strictly no more than 3) to solve these challenges presenting the best of our students in Computer Science, Information Technology, Software Engineering and Game Development. Many different skillsets on every team are desired for the best results for our industry leaders.

Wednesday, September 25 (Mentoring Sessions)

Thursday, September 26

Friday, September 27

Saturday, September 28

Registration

You can select to register your Team and Create a Team Name, followed by the information for all team members at once. No more than three members will be allowed for your team. Please pick your primary choice for a challenge. You can come back to your registration and make changes up to the date of the kickoff. If you do not have a team, one will be assigned to you and published prior so you can communicate with them prior to the kickoff. You will be allowed to change teams and challenges during the kickoff check-in process depending on slots available. Each sponsor will have a cap for the number of teams/slots available. Best to pick your favorite early! Picking a sponsor will not guarantee you will be on that team – it will be first come, first serve!

Food and snacks will be provided throughout the week and weekend during the Hackathon, computer labs will be open for working on projects with industry sponsors and faculty during the weekend, attendees can come and go as needed throughout the weekend (and work on projects off campus), with the exception of Wednesday and Saturday when all attendees are expected to attend the final presentations and awards dinner.

Volunteers

Not quite ready for Hackathon? Volunteer! Get your free signature t-shirt and join the fun. Here's how it works in 3 easy steps:

1. Visit our SignUp event page.
2. Enter your email address: (You will NOT need to register an account on SignUp.com)
3. Sign up! Choose your spots - SignUp.com will send you an automated confirmation and reminders. Easy!

If you have any questions concerning eligibility or about the event itself, contact the event coordinator Dawn Tatum (dtatum7@kennesaw.edu).

Sponsors

Thank you to all of our generous sponsors: Anthem, Equifax, HPCC Systems, InComm and MagMatual! Please see below for parking information for our sponsors:

- Wednesday, September 25: Lot P51
- Friday, September 27: Deck P60
- Saturday, September 28: Deck P60
