- All exams/tests will be taken online through D2L (under Quizzes) using Respondus Lockdown Browser with Monitor.
- All exams/tests may include Multiple Choice, True/False, Matching and/or Short Answer questions.
- If you start your exam/test between the times listed in the chart above for your section, you will get the full amount of time to complete your exam.
- All exams/tests are to be taken individually with no outside resources per FYE Policy.
- Technical issues encountered during an exam/test should be handled according to FYE Policy to ensure that a make-up exam/test can be administered.
- We do NOT recommend waiting until the last 15 minutes of the times above to start your exam/test as setting up the exam/test in Respondus Lockdown Browser takes several minutes, which may cause you to miss the exam window. Note: this does not constitute a technical issue, this is a time management issue.
