How to Log In to Virtual Desktop

Purpose: This document will show how to download and install the VMWare

Horizon View client. Using this client program, you will be able to log in to your virtual desktop to complete assignments and labs without having to download software.

Needed: You will need:

- Connection to Internet
- Web Browser
- KSU Email and Password

Process:

- 1. Using your web browser, visit the web address https://cseview.kennesaw.edu/
- 2. From this page, download the VMWare Horizon Client.

You can c The VMw	onnect to your desktop and applications by using the VMware Horizon Cl are Horizon Client offers better performance and features.	ient, or to your desktop through the browser.	
	Install VMware Horizon Client	VMware Horizon HTML Access	

Select the client for your preferred operating system and click "Go To Downloads"

7. Choose a VM (your teacher will specify which one to use)

 When you are ready to disconnect, save your work to a USB drive or to your local computer. Then select "Disconnect and Log Off"

FAQ: This program will let you use a virtual machine for your CCSE labs. A virtual machine lets you work on a virtual computer without changing anything on your actual device. The CCSE Standard VM will revert back to its original settings and any changes you make will be lost once you logoff. If you use any other VM that is assigned by a class or lab, your changes to VM will be saved throughout the semester.
