

Bio: Anju Mathew

Anju Mathew is the CEO and co-founder of OncoLens, a company focused on utilizing AI and collaboration tools to optimize the delivery of cancer care. OncoLens currently serves more than 200 cancer centers in the U.S and internationally.

She has a passion for technology innovation, healthcare entrepreneurship and engineering. Previously, she led technology and innovation at McKesson's Medical Surgical business unit. She also worked in McKesson's corporate strategy group and co-founded LumaMed, a cancer imaging company.

Anju has raised over \$20M in funding and received numerous accolades, including the Women 2.0 2009, TAG top innovator's award and GA Titans awards. She is an active angel investor and former member of the Atlanta Technology Angels. She has held strategy and technology roles at Thomson Reuters, A. T. Kearney, IBM, and i2 Technologies.

Anju holds an MBA from Northwestern University's Kellogg School of Management and a Bachelor's in Industrial Engineering from the Indian Institute of Technology.
