Nathan Sundheimer is the Director of Digital Strategy within Wipfli's Healthcare practice, where he drives innovation and digital transformation across a wide range of healthcare organizations. Sundheimer architects and generates holistic, long-term solutions that positively impact these institutions as they navigate the ever-changing digital and healthcare landscapes in an effort to augment enterprise capabilities, improve patient care, and advance healthcare access and delivery.

Prior to Wipfli, Sundheimer was the Head of US Health Partnerships at Plug and Play, the world's largest innovation platform that connects startups, corporations, and investors to drive technological advancements and business growth at scale. In addition, his previous experience stretches from early-stage laboratory research, to supporting the creation and development of early-stage technologies and startups, as well as navigating various dilutive and non-dilutive funding opportunities.

Sundheimer has been recognized for various accomplishments, including being named in the Crain's Business 2021 Twenty in their Twenties list and the 2023 Forbes 30 Under 30 cohort. He has participated in several industry-leading events hosted by organizations such as the American Medical Association, HITLAB, and Stanford University. Sundheimer holds a Bachelor's degree in Neurobiology from the College of Wooster, a Master's degree in Business Administration from the Weatherhead School of Management at Case Western Reserve University, and a Master's degree in Health Systems Engineering from the Whiting School of Engineering at John's Hopkins University.
