## Introduction

SoftChalk Cloud is a web application that lets you create lessons to publish online. Lessons can include text, multimedia, self-check quizzes, and more. Your lessons can include multiple linked pages and a table of contents, and you can style your lessons for a professional look. Kennesaw State University also has licenses for the SoftChalk Cloud, which allows you to easily make changes to your existing lessons.

This document was created with SoftChalk Create 11, available at <u>https://uits.kennesaw.edu/downloads/</u>.

The booklet demonstrates how to incorporate SoftChalk into your D2L Brightspace course.

## **Learning Objectives**

After completing the instructions in this booklet, you will be able to:

- Save lessons to SoftChalk Cloud
- Link your SoftChalk Cloud lesson to D2L Brightspace
- Link your SoftChalk Chalk Cloud lesson ScoreCenter to D2L Brightspace
- Edit your SoftChalk Lesson

## Saving to SoftChalk Cloud

- 1. In *SoftChalk Create*, click **File** (See Figure 1).
- 2. Click Save To SoftChalk Cloud (See Figure 1).

## Linking Your SoftChalk Cloud Lesson to D2L Brightspace

You can publish your lesson to D2L Brightspace using the SoftChalk Cloud. This will link your SoftChalk Cloud lesson content within your D2L Brightspace course.

**Note**: Linking the SoftChalk Cloud lesson URL will not connect the ScoreCenter to D2L Brightspace. See <u>Linking</u> <u>Your SoftChalk Cloud Lesson ScoreCenter to D2L Brightspace</u>.

#### Hyperlink the SoftChalk Cloud Lesson

- 1. Choose your course from the *My Courses* area.
- 2. Click **Content** from the course navbar.
- 3. Under the appropriate module, click the grey **Existing Activities** button (See Figure 4).
- 4. From the Existing Activities drop-down menu, click SoftChalk Link Selector (See Figure 4).

## Linking Your SoftChalk Cloud Lesson ScoreCenter to D2L Brightspace

SoftChalk lesson scores within the D2L Brightspace gradebook, you are using a SoftChalk feature called the ScoreCenter. You can access by clicking on the name for your lesson in the assignments area of D2L Brightspace and you will see the ScoreCenter interface. All the scores within the ScoreCenter are also added the D2L Brightspace gradebook.

**Note:** While ScoreCenter integration is possible, please be aware that this solution is not intended to replace the Quizzes function in D2L Brightspace.

**Note**: The recommended use of SoftChalk quizzes and ScoreCenter grades items is for self-assessment purposes only.

## View and Configure a SoftChalk Cloud Lesson

You will need to set the grading method and the maximum attempts allowed. All student attempts will be collected, and you can view all the attempts for each student for each lesson. You can change the grading method and maximum attempts at any point. If you want to allow your students only one attempt for the lesson, you need to set that option right away.

**Note**: Be sure to log out of your SoftChalk Cloud account when you are taking your lesson as a student to test out the ScoreCenter feature. If you are logged into your SoftChalk Cloud account while logged into D2L Brightspace and taking a lesson, then the scores won't be recorded.

- 1. Log into D2L Brightspace in your web browser.
- 2. Choose your course from the *My Courses* area.
- 3. Click **Content** from the navbar.
- 4. Click the link to your SoftChalk Cloud lesson (See Figure 12).

- 5. In the *SoftChalk Cloud ScoreCenter* for the lesson, you can do the following:
  - a. View Lesson Preview the lesson (See Figure 13).
  - b. Actions Click the Actions button to change scoring method, change maximum attempts, and complete all attempts (See Figure 13).
    - i. Change Scoring Method Change the way the grades are calculated (See Figure 13).
    - ii. **Change Maximum Attempts** Changes how many times a learner is allowed to attempt the content (See Figure 13).
    - iii. Complete All Attempts Completing all attempts will mark every attempt for all learners as Complete and allow for the editing of grades. A completed attempt will also be part of the grade calculation (for instance, if you choose the average of all the grades). (See Figure 13).
  - c. **Learners** View learner attempt(s) and detailed information on the attempt(s) (See Figure 13).

## **Editing Your SoftChalk Lesson**

Since the SoftChalk Cloud allows you to simply link a lesson into D2L, you can easily edit your lessons at any time. The update is immediately available to your students.

#### Editing Your Lesson in SoftChalk Create

On your own computer, you can edit your SoftChalk lesson in your locally installed SoftChalk Create software.

- 1. Open SoftChalk Create.
- 2. Click File in the SoftChalk Create menu bar (See Figure 16).
- 3. Click Open from SoftChalk Cloud (See Figure 16).

Figure 16 - Open from SoftChalk Cloud

- 4. Browse to your lesson in your SoftChalk Cloud lessons area and select it (See Figure 17).
- 5. Click the **Open** button (See Figure 17).

12. After your lesson uploads to the SoftChalk Cloud, click the **Close** button.

**Note**: Choosing *Open from SoftChalk Cloud* instead of just *Open* or *Open Recent* is a recommended best practice; ensuring that you are editing the most recent version of your lesson. It also ensures that you save the updated lesson to the same spot in the Cloud, making your update instantly available to your students without any further action from you.

## Editing Your Lesson from the SoftChalkCloud.com Website

If you are using a computer that does not have SoftChalk Create already installed, you can edit a SoftChalk Cloud lesson from the web browser. This example uses the Mozilla Firefox browser.

- 1. In your browser, go to the website <u>http://www.softchalkcloud.com</u>.
- 2. Click the Login link at the top right (See Figure 22).
- 3. Type your email address (See Figure 22).
- 4. Type your **password** (See Figure 22).
- 5. Click the **Login** button (See Figure 22).

**Note**: If you do not have a SoftChalk Cloud account, please submit a request to the KSU Service Desk via phone (470-578-6999) or email (<u>service@kennesaw.edu</u>).

**Note**: You may be prompted to install SoftChalk Create. If so, follow the prompts to complete the installation process. Once the installation is complete, you will see a new SoftChalk Create shortcut on your desktop. This version of SoftChalk Create is the Cloud version. You may access SoftChalk Create using either of the shortcuts on your desktop.

14. Your browser will prompt you to open a link with the *Java Web Start Launcher*. Click the **Open Link** button (See Figure 25).

Note: The message below appears in Firefox. Each browser will have a different message.

**Note:** If this is the first time you have edited a lesson from the SoftChalk Cloud on this computer, there is a delay of several minutes while the SoftChalk Create web-launch software is installed.
