STEP 1:
Log in to the Housing Portal and click on the Roommate and Room Selection tab.

STEP 2:
You will see a list of communities with available units. If you do not see a community listed on this page, it is either not available due to your classification or because there are no longer any beds available in that community.

STEP 3:
Once you select a community, you will be able to sort the beds within that community based on room type and specific building.

STEP 4:
When you find a room that interests you, select it and add it to your cart. Roommate Pair leaders must add two beds to their cart: one for themselves and one for their preferred roommate. Both beds must be in the same unit, otherwise you will receive an error message.

STEP 5:
You will have ten minutes from the moment you add the first bed to your cart to add a second bed, if you are a Roommate Pair leader. If you need to start over, the clock will reset and the room(s) will be removed from your cart.
