

LEARNING COMMUNITIES – KENNESAW CAMPUS

COLLEGE OF THE ARTS

LC #1– The World of the Scholar Artist: Dance Majors

Connect and collaborate with other dancers while developing skills that will allow you to navigate the unique demands of KSU’s award-winning Dance major. Students will create a community of support, which will foster academic success and lasting relationships in the Department of Dance.

LC	Course	Time	Day	Instructor	Campus	CRN

COLLEGE OF SCIENCE AND MATHEMATICS

These Learning Communities help Science and Math majors build connections with other students across the disciplines. Students will learn about the unique opportunities and challenges facing students in degrees across the College of Science and Mathematics and how to tackle them while building a support network and beginning their studies for all the CSM disciplines. The courses in these Learning Communities will focus on integrating the many facets of success in Science and Math disciplines while giving students an important understanding of quantitative literacy and starting them on the path of discovery in the material Universe.

LC #4 - #7 – Success in Science and Mathematics: AMP Students

These are for CSM students in the Advanced Majors Program (AMP).

Additionally, students in these AMP Learning Communities are encouraged to register for one of the following MATH courses (depending on placement).

Learning Communities Fall 2020

MATH 1113 9:05AM-9:55AM MWF J. Noring 85340

LEARNING COMMUNITIES FOR TARGET POPULATIONS

HONORS PROGRAM

LC #CH 1 – Honors Great Books Learning Community

We believe that by reading the foundational works of world civilizations, we are providing you a solid educational foundation upon which you will continue to build for the remainder of your college education – no matter the major you choose. The summer session will be taught in Montepulciano, Italy! *For more information, contact Dr. Jack Moran, Great Books Director, at 470-578-5483.*

LC	Course	Time	Day	Instructor	Campus	CRN

LC #26 – African American Male Initiative (AAMI): Professional Development

This two-semester Learning Community will use an interdisciplinary approach to support the identity and professional development of students in the African-American Male Initiative (AAMI) program. Students will participate in academic projects and critical thinking activities to build a foundational understanding of American History, language, and global issues as they relate to identity development. Additionally, students will engage in racial, ethnic, gender, political, economic, and religious discourse. For more information contact Brandon Jackson with Cultural & Community Centers at 470-578-4518.

This is a hybrid course that meets face-to-face Monday and Wednesday and online 33% of the time

THRIVE PROGRAM

Students who have been accepted into the Thrive Program are eligible for the following Learning Communities (LC #30 - #35). The nationally award-winning Thrive Program helps first-year students get a jump-start on college success. Thrive creates a community of engaged students who are able to transition more easily into their college experience, with a network of resources to help them maintain the HOPE scholarship and stay on track to graduate.

GENERAL INTEREST LEARNING COMMUNITIES

LC # C36 - Sexuality and Culture: How Culture Influences Sexuality

In this learning community, we will explore how our culture and other cultures around the world view sexuality and how those views affect our daily lives. Looking at sexuality from a broad spectrum will help us better understand what we do, how we respond, and how we treat others who may choose a different lifestyle. This learning community is ideal for students interested in or majoring in gender and women's studies, sociology, anthropology, nursing, education, health and wellness as well as any student simply interested in learning more about the diversity of the human race.

LEARNING COMMUNITIES – MARIETTA CAMPUS

COLLEGE OF ARCHITECTURE AND CONSTRUCTION MANAGEMENT

LC #40 - #49 – Success in Architecture: Fundamentals of Design Thinking

These Learning Communities introduce theoretical and practical frameworks that inform fundamentals in architectural design. Students shall develop foundational skills, including sketching, drawing, drafting, and model-making. Students shall also develop an awareness of the formal, philosophical, and ethical aspects in architectural design, including sustainable design and social issues. This allows students to understand how basic parameters in design, including spatial, formal, and phenomenal factors and craftsmanship, influence decision-making and inform critical thinking. These LCs will pair theoretical architectural readings with a series of design exercises, allowing students to develop and demonstrate skills in reasoning, problem-solving, and representation.
