The KSU Library System is happy to announce that it will no longer charge overdue fines on books and technology effective June 1, 2023. This will be a great benefit to our students in reducing costs and barriers to library use. The KSU Library System is joining other USG libraries who have removed fines including UGA, GA Tech, Georgia Southern, and the University of North Georgia.

This does not mean that people do not have to return items to the library. Items will still have due dates. If an item is not returned, or is returned damaged, replacement costs will be charged to the user’s library account.
