

# KSU QEP CRITICAL REFLECTION PROMPT CHECKLIST

The following is a list of required elements that contribute to a high-quality critical reflection. They are separated into the four areas of reflection (i.e., educational value, connectedness insights, integrated problem-solving, and values growth) that compose your final critical reflection for the experience.

## Educational Value

### Present?

#### The reflection...

- |   |     |    |
|---|-----|----|
| 1. describes the value that this experience had on your education at KSU. | Yes | No |
| 2. compares the value of this experience to other experiences at KSU.     | Yes | No |

## Connectedness Insights

#### The reflection...

- |  |     |    |
|--|-----|----|
| 3. provides examples of how the experience has allowed you to understand the content of your discipline or changed your perspective about the content of your degree program.              | Yes | No |
| 4. provides examples (the same or different than those given above) of how the experience allowed you to see the relationship among content from different courses in your degree program. | Yes | No |

## Integrated Problem-Solving

#### The reflection...

- |  |     |    |
|--|-----|----|
| 5. provides multiple examples of how you applied knowledge learned from your coursework to a challenge or problem you encountered in this experience | Yes | No |
| 6. highlights how you applied the knowledge identified above to successfully overcome the challenge or solve the problem that was encountered.       | Yes | No |

## Values Growth

#### The reflection...

- |   |     |    |
|---|-----|----|
| 7. identifies personal or professional core values that you have focused on developing through your experience.             | Yes | No |
| 8. provides multiple examples that demonstrate how the experience contributed   | Yes | No |
| 9. provides examples of how you have developed self-confidence and self-esteem related to the core values identified above. | Yes | No |
