

Student Health Insurance Plan Enrollment

Did you know your school has a student health insurance plan?

You may now be eligible to enroll...

Your school has a student health insurance plan that offers access to physicians, many resources and services geared toward the student population. With everything going on today, it might be time to evaluate your health insurance coverage. An unplanned illness or accident may happen at any time and could cause a financial burden if you don't have adequate coverage.

There's a chance your school's student insurance plan may be more affordable than individual insurance through a health care exchange or being added under an employer plan. Plus, our plans are designed for students.
