

# On the Way to Being Published

Your Path to Success:  
Understanding What  
Makes a Scholarly  
Article

## 02 Review

Scholarly articles undergo a peer review process to ensure quality and accuracy.

## Audience 01

The intended audience consists primarily of academics and experts in the discipline.

## Content 03

Manuscripts present original research findings, experimental results, or in-depth theoretical analysis.

## 04 Affiliation

Scholarly articles are published by academic organizations/journals which attest to credibility.

## Rhetoric 05

There is the use of formal, discipline-appropriate language in a structured argumentation or study.

## 06 Citations

The author cites other scholarly sources, includes in-text citations, and a bibliography.
