## **TEACHING EXPERIENCE**

---

**Kennesaw State University, Atlanta, Ga** August 2021 to Present  
**Lecturing Faculty**, Health Assessment and OB/Pediatric course

- Articulates a philosophy of nursing education, which incorporates a framework for educational practice.
- Influences quality-of-care by ensuring results-oriented approaches and current knowledge among new nursing students.
- Analyzes performance metrics to identify opportunities to improve nursing education throughout the institution.
- Enhances the clinical competency of nursing professionals by providing "learning lab" directives to junior-level nursing students.
- Works hand-in-hand with local hospitals as well as educators, preceptors and other specialty educators to coordinate high-quality educational programs for junior-level nursing students.
- Leads orientations and teach in classroom settings, in learning labs and on medical floors.

**Mercer University, Atlanta, Ga** August 2020 to June 2021

**Adjunct Faculty**, Adult Acute care and Fundamentals

- Oversaw and instructed baccalaureate level nursing level students in their High Acute Nursing rotation as well as Fundamental course in the ABSN program.
- Proficient in educating on clinical assessment, SBAR, various disease processes and procedural skills.
- Created case studies, practice NCLEX questions, helpful hints and tips, and graded students of SBAR and clinical criteria daily. Revised the syllabus to meet accreditation standards
- Coordinated grading and simulation labs with students

- Served as a role model of excellence in patient care while providing care with a holistic approach
- Assure that students are aware of, understand the rationale for, and carry out the hospital med-surg policies and procedures and provide through documentation.

**Kennesaw State University, Kennesaw, Ga.**
